Brian Dinning (briandinning@hotmail.com)

Dear Brian,

This is an email confirming that Dr. Stiner contacted me at my office several times leaving messages for my secretary and then on my personal office phone. In that message he said negative things about Brian Dinning and was emotional. He said it was urgent that I talk to him and that he was a respected member of the medical profession who had information that I needed and that was urgent regarding Brian.

I considered this recorded message bothersome and bordering on intimidation...my secretary also reported that she thought the caller was agitated on the message he left for her.

Sincerely,

Dr. Joseph Umidi
